

PA-6FM - Fault Monitor Module

Fault monitoring module,
for PA amplifiers PA-6240, PA-6480, PA-6600 and PA-1960.

- Indication of mains voltage failure and operating voltage failure
- Indication in case of fan failure
- 3 independent, floating relay outputs (NO/NC)

Tekniset tiedot:

| | |
|-----------------------|--------------------------------------|
| Description | : fault monitoring module |
| Nominal value | : - |
| Type | : - |
| Colour | : - |
| Material | : - |
| Suitable for | : PA-6240, PA-6480, PA-6600, PA-1960 |
| Power supply | : - |
| Admiss. ambient temp. | : 0-40 °C |
| Dimensions | : - |
| Length | : - |
| Mounting dimensions | : - |
| Weight | : 45 g |
| Connections | : screw terminals |
| Other features | : - |
| Packing unit | : 1 |
