

BOXSET-1 - Acoustic set BACKBOX+EDL82HQ

BOXSET-1 The set consists of a 2-way HiFi speaker EDL-82HQ that can be used as a regular speaker and as a 100V speaker, as well as our acoustic cabinet BACKBOX-1. The combination of BACKBOX-1 and EDL-82HQ provides a range of audio and durability benefits. By mounting the EDL-82HQ speaker in the BACKBOX-1, you achieve a much better and more balanced sound reproduction, as the box provides the speaker with the correct acoustics. In addition, BACKBOX-1 is designed to be easy to integrate into the ceiling or wall. Therefore, [BACKBOX-1](#) and [EDL-82HQ](#) are a really good choice when you want to achieve the best sound quality from built-in speakers. **EDL-82HQ**
