## Tekniset tiedot:

|                        |   |
|------------------------|---|
| Intended use           | : microphone                                |
| Connectors             | : 1 x 6.3 mm mono plug, 1 x XLR inline jack |
| Cable specification    | : -   |
| Length                 | : 12 m                                      |
| Colour                 | : black                                     |
| Cable diameter         | : Å~ 6.5 mm                                 |
| Metre marking          | : -   |
| Minimum bending radius | : -   |
| Shielding              | : yes                                       |
| Shielding value        | : -   |
| Impedance              | : -   |
| Attenuation            | : -   |
| Capacitance            | : -   |
| Power rating           | : -   |
| Rated current          | : -   |
| Internal conductor     | : -   |
| No. of cores           | : -   |
| Material               | : OFC                                       |
| Packaging              | : -   |
| Weight                 | : 0.64 kg                                   |
| Position               | : -   |
| Special feature        | : -   |
| Other features         | : low-noise                                 |
